

Consider sensory sensitivities

Consider how the organisation of the learning space could be a trigger for certain behaviours.

Discuss your ideas with students and develop agreed solutions.

Possible triggers	Possible solutions
Resources or materials difficult to find.	Label and colour code resources.
Unpredictable noisy entry into the classroom.	Develop classroom entry protocols.
Cluttered chaos of bags and coats.	Establish a protocol for how bags will be managed.
Classroom layout keeps changing without warning or collaboration.	Discuss changes with students and agree on a time frame for changes.
