Support connection

At Pearl-Cohn High School an integral part of the curriculum is a daily practice called “The Nest”.

For students, the impact is increasing connection and community.

Support student friendships

Encourage students' attempts to make friends by offering useful and timely guidance.

- ✓ Be a positive role model and respect individual differences. Model respect, caring, patience, and positive interactions.
- ✓ Promote connections around common interests.
- ✓ Provide opportunities for ongoing student connections.
- ✓ Help students to join ongoing group activities by finding appropriate roles for them.
- ✓ Help keep student interactions going – explain the actions of students whose social skills are just developing.
- ✓ Share information about emergent friendships with whānau so they can arrange for students to get together outside of class.

Reflective questions

Adapt for your own context.

What strategies do you use to support friendship building?

How do you support peer connection at break times?

What approaches do you use to support children who do not have strong friendships?

How can you create regular opportunities where students learn about each other?

How do you utilise technologies to increase connection between students and build friendships?
