Encourage sustained participation

Discuss with students what will support their participation and motivation.

Build these suggestions into your teaching practice.

- ✓ Establish clear classroom routines.
- ✓ Teach strategies to help students when they get stuck.
- ✓ Break work into short manageable chunks.
- ✓ Give positive, timely feedback.
- ✓ Brief students about changes to routine.
- ✓ When changing classroom layout, provide a plan of new layout and when it will happen.
- ✓ Provide easy access to quiet spaces for working or winding down.
- ✓ Schedule brain breaks.
- ✓ Notice avoidance tactics or increasing anxiety, implement supports quickly.
- ✓ Offer leadership opportunities based on knowledge of student's expertise and interests.
- ✓ Connect learning to student's interests.
- ✓ Foster tuakana-teina relationships where students support each other.

Develop social skills

Some students may need targeted teaching of social skills.

For example, students with dyspraxia may have difficulty picking up non-verbal cues or may lack self-awareness of personal hygiene issues.

- ✓ Define one or more social behaviours the student needs to learn, in measurable terms.
- ✓ Sensitively raise self-awareness of personal hygiene issues.
- ✓ Share examples of good communication techniques.
- ✓ Use a range of teaching techniques, for example, structured discussions, social stories.
- ✓ Help students to generalise skills through role-play and video modelling.
- ✓ Practise skills in a structured teaching situation and then in everyday situations – the student may need help to do this.
- ✓ Check the student can use the new skills in different situations.
