Help students to complete tasks successfully

Create an environment where students can complete tasks.

- ✔ Provide instruction in short segments (for example, teach → student activity → teach → student activity).
- ✔ Provide students with a checklist with tasks broken into smaller segments. Highlight key parts of the task.
- ✔ Before beginning a task, have students explain their understanding of what they are doing (they can do this with a buddy).
- ✔ Give positive feedback to students who start promptly.
- ✔ Check on student progress frequently.
- ✔ Ensure that all materials and resources are accessible.
- ✔ Help students to develop an action plan outlining the key steps required to complete difficult tasks.
