Support management of technologies

Students with low vision may need additional support to manage their technologies and advocate for their use.

Discuss with students how they will:

- move specialised equipment around independently
- ensure that everyone in class knows about the equipment and understands how to look after and respect it
- negotiate extra space to store equipment.

Support independence

Key areas to consider when discussing with students how they are managing themselves and their learning, and what strategies could support their next steps.

- level of self-esteem and self-advocacy
- ability and willingness to use technology
- ability to manage equipment and mobility skills
- self awareness of needs
- awareness of fatigue and frustration levels.
