Focus areas years 9-10

Ensure programmes affirm sexuality and gender diversity and identify and respect the diverse values and beliefs of students and the community.

Students in years 9-10 will learn about:

- intimate relationships and positive sexual health
- managing their own sexual health and accessing health care
- conception, contraception and sexually transmissible infections
- the physical and emotional effects of sexual identity, sexual attraction, and sexual maturation
- identifying skills for positive and supportive intimate relationships
- human rights, consent, and the importance of choice and agency in relationships
- strategies to support positive engagement in online and social media environments
- strategies for seeking help and support.

Focus areas years 11-13

Ensure programmes affirm sexual, sexuality, and gender diversity and identify and respect the diverse values and beliefs of students and the community.

Students in years 11-13 will learn to:

- critically analyse a wide range of issues relating to gender, sexuality, and sexual health
- explore social pressure, social norms, gender identity and cultural issues relating to sexual health
- evaluate community agencies
- evaluate policies on sexuality and sexual health
- critically analyse issues of safety and risk
- research positive sexual health practices
- affirm diversity, human rights, and sexuality across the school
- advocate for access to support and health care.

Prioritise access for students in years 11-13

Support equitable
access to knowledge.

It is recommended that all students engage in sexuality education in years 11–13.

This should not be limited to students completing NCEA courses and standards in health education.
