

Families provide action plans

Families and whānau are responsible for providing an up-to-date allergy action plan, which they get from a registered medical practitioner.

Plans are prepared using ASCIA templates for **anaphylaxis and allergic reactions**.

Action plans should be updated:

- following an annual doctor's appointment
- when a new auto injector is purchased
- when allergy information changes.

If a child or young person is at risk of anaphylaxis, they will be prescribed an adrenaline auto-injector (EpiPen) and given an Anaphylaxis Action Plan.
