

No allergy action plan?

Not every child will have an ASCIA allergy action plan.

Parents or caregivers may indicate on the enrolment form that their child has allergies, but they don't have an allergy action plan. This may be because:

- the allergy is mild and the student does not require an ASCIA allergy plan
- the family don't know that allergy plans are available from the doctor – [ASCIA information for parents](#)
- the allergy is not life threatening (pollen or animal dander allergies).

Ensure you collect all necessary and relevant information from parents and whānau so that all staff are aware of the triggers and preventative measures to ensure the child is safe.
