

Age appropriate access

Older students may prefer to carry their auto-injector EpiPen themselves with the agreement of their parents and the school.

Support students to self-manage by:

- ensuring someone else knows where their EpiPen is kept in the event of an emergency
- working with students to store EpiPens in safe (for example, out of the sun) and easy to access locations
- working with students to find out if they will carry their own medication to, from, and at school.
