

Ease anxiety

Parents may be worried about the safety of their child, especially if they are at risk of anaphylaxis.

Provide support during the enrolment process.

- ✓ Follow-up on a child or young person's enrolment information.
- ✓ Organise a meeting with parents to discuss their and their child's individual needs.
- ✓ Discuss risk minimisation strategies and develop a health-care plan. When the young person at risk is at high school, they will usually be included in this discussion.
- ✓ Explain health and safety policies and procedures for managing allergies.
