

# Consider sensory sensitivities

Consider how the organisation of the learning space could be a trigger for certain behaviours.

Discuss your ideas with students and develop agreed solutions.

Possible triggers	Possible solutions
Resources or materials difficult to find	Label and colour code resources
Unpredictable noisy entry into the classroom	Develop classroom entry protocols
Cluttered chaos of bags and coats	Establish a protocol for how bags will be managed
Classroom layout keeps changing without warning or collaboration	Discuss changes with students and agree on a time frame for changes
