Gather information to inform practice

Use a team approach to gather information, understand and respond to factors that shape behaviour. Monitor approaches, identify issues early and build effective practices.

- Develop information and data collection, monitoring, and reporting systems.
- Identify and respond to issues early.
- Share effective approaches across home and school.
- Identify and cater for professional development needs.
- Develop clear communication and monitoring systems to ensure information is passed between staff and settings.
- Develop and use a decision-making process that is centred on the learner and allows for shared knowledge and collaboration.
- Develop processes for accountability and ongoing review of behaviour approaches.
