

Learn about preferences and sensitivities

Partner with ākonga, whānau, colleagues and the student's team to learn about student preferences and needs.

- ✓ Seek and act on student voice.
- ✓ Give ākonga and whānau regular opportunities to share preferences and sensitivities. These may change over time.
- ✓ Notice differences in behaviour between spaces, contexts and teachers.
- ✓ Identify factors that support success and aim to replicate them as far as possible.
- ✓ Identify factors that cause distress and minimise or address those things within your control.
