# Record observations

Consider the following questions in your own context.

Take a look at **some examples** to kick-start your thinking.

- 1 What are you observing?
- 2 When does it happen – the particular context or setting?
- 3 When does it not happen?
- 4 What happens beforehand?
- 5 How do people around them respond?
- 6 What is the impact on learning?
- 7 What helps?
