Overview

In planning for action,
the cluster will need to:

- ✓ be clear about the problem or issues to be solved to ensure equity and excellence of outcomes for all learners
- ✓ understand what has to improve and how to improve it
- ✓ consider and select options guided by evidence and feedback from tamariki and whānau about what will make the most difference
- ✓ know where the capability and capacity to improve lies and identify what (if any) external expertise is needed
- ✓ identify the actions to be taken and why and what success looks like
- ✓ allocate the resources necessary to take action.
