Offer learners options to reflect on their learning

There is no one-size-fitsall when it comes to supporting students to take ownership of their learning.

Consider the following approaches.

Explore with students what will work for them.

- 🗸 Story hui
- ✓ Learning maps
- ✓ Mentoring conversations
- ✓ Learner profiles
- ✓ Strengths chain
- ✓ Listening conferences
- ✔ Learning conversations using puppets
- ✔ Personal learning progressions using Google Sites
- 🗸 Manutaki Māori
- ✓ Individual vision board

Support students to teach each other

Helen Collins shares two stories about the impact of **Developing Mathematical Inquiry Communities (DMIC)** and inclusion.

Take an "ability-inclusion" approach

All children can be asked and communicate their views.

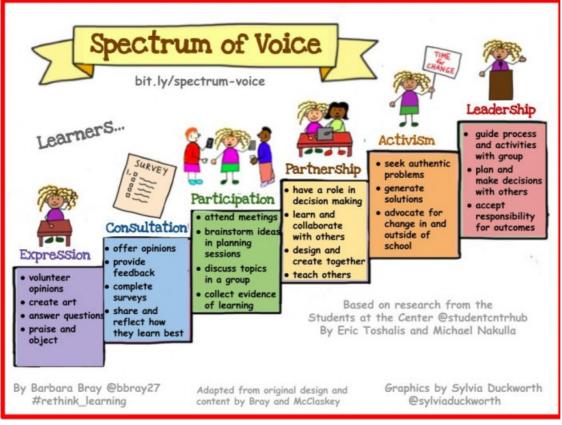

Taking an 'ability' approach ensures you focus on how children with disabilities can participate and communicate their views on their own learning and the design of the learning environment. Reflect on how you support student voice and learner agency in your learning space. Do you provide:

- learning and social environments accessible by wheelchairs?
- resources and materials created so every child can access and use them?
- self-review and feedback tools and approaches designed to allow all students to use them?
- access to sign-language interpreters or supporters who can interpret or support communication?
- multilingual resources?
- quiet spaces to take a break?
- regular communication opportunities and do you ask whānau and those who know the children how to improve support?
