

Involve the school community from the outset

Collaborate to build your hybrid learning approach together.

- ✓ Involve ākonga, teachers, other school staff, whanau, hapū, iwi and the school community from the outset.
- ✓ Ensure all voices, both tangata whenua and tangata tiriti, are heard and have influence.
- ✓ Building reciprocal, learning-centred relationships between students, whānau, community, and teachers.
- ✓ Use an inquiry approach to identify needs and plan supports. For example hybrid models for younger or supported students will be significantly different from those designed for older more independent students.
- ✓ Lead professional learning conversations and opportunities to learn about hybrid approaches.
