Remove hidden barriers to achievement

Make all supports and options available to everyone.

- ✓ Develop success criteria in partnership with students.
- ✓ Where possible, set goals that enable students to demonstrate their understanding through multiple pathways.
- ✓ Offer students a range of options for expression including text, images, voice, video, animation or a combination of media.
- ✓ Ensure that the “means” of demonstrating understanding is not a barrier to success.
- ✓ If the “means” are a barrier for some students, build in supports such as text-to-speech at the outset.
