

Increase access to content

Ideas for presenting and sharing content and instructions in more than one way.

- ✓ Take a multisensory approach – use real experiences, physical activity and manipulables to support understanding.
- ✓ Support text and spoken information with photos, graphics, audio and video.
- ✓ Present digital text rather than printed text so that students can personalise it (for example, by enlarging it or listening to it).
- ✓ Use blogs, wikis and online tools such as Moodle to bring together different versions of content in one place (for example, a YouTube video, a graphic and some text).
- ✓ Make instructions, demonstrations, or key content rewindable and accessible 24/7.
