Support understanding with visuals

Offer information in more than one way.

Use symbols and graphics to illustrate key concepts.

Keep the layout clean and uncluttered.

Consider apps such as [Routinery](#).

Take a multi-sensory approach

Offer learners multiple opportunities to build understanding using all their senses.

- ✓ Offer real experiences, physical activity, and manipulables to support understanding.
- ✓ Support text and spoken information with photos, graphics, audio, and video.
- ✓ Present digital text rather than printed text so that ākonga can personalise it by enlarging it or listening to it.
- ✓ Use online tools such as Google Slides or blogs to bring multimedia together, so learners have content options presented in different media all in one place (for example, a YouTube video, a graphic and some text).
- ✓ Make instructions, demonstrations, or key content rewindable and accessible 24/7.

Find videos with closed captions

How to find YouTube videos with closed captions using a laptop or desktop computer.

- ✓ Search for YouTube and open the home page.
- ✓ Type search subject (for example “frogs”) into YouTube search bar and press return key.
- ✓ On left of screen, click the tab called “Filters” and a menu box will open.
- ✓ Select “subtitles/CC” under the Features list.
- ✓ Select a video from the selection of filtered videos presented by YouTube.
- ✓ Watch the selected video with the closed captions turned on to check for accuracy before sharing with learners.
- ✓ Share closed captioned video with ākonga.
