

Support processing and organisation skills

A suggestion for implementing the strategy 'Helpful classroom strategies years 9-13' from the Guide: [Down syndrome and learning](#)

-
- Includes:**
- Support concentration and memory
 - Offer visual timers
 - Support planning and organisation
 - Model planning and thinking
 - Support thinking and pattern recognition
 - Useful resources

Support concentration and memory

Provide options to support concentration and short-term memory.

- ✓ Monitor and moderate the classroom for visual and auditory distractions.
- ✓ Present information in a range of ways over an extended period of time (for example, a week) to help students retain information, build up their understanding and familiarity of the topic, and stay stimulated and focused.
- ✓ Discuss with students the effectiveness of the learning environment and remove barriers and make modifications where needed.
- ✓ In online environments, make effective use of visual prompts and cues to support understanding and navigation. Make useful hyperlinks to background knowledge or previous learning to increase connections.
- ✓ Schedule regular short breaks to allow students to move physically.

Offer visual timers

Visual timers, can help students "see" the time they have for a task.

This can reduce stress and increase motivation.

Support planning and organisation

Use flexible learning environments that support executive functioning skills such as processing information and organisation.

- ✓ Use charts, visual calendars, colour coded schedules, visible timers and cues to increase the predictability of regular activities and transitions.
- ✓ Encourage students to use their mobile devices to schedule alerts and reminders for regular and novel events and task deadlines.
- ✓ Model and make available graphic organisers and flow charts to support planning and thinking in all curriculum areas.
- ✓ Break tasks and lengthy assignments into small, manageable parts. Schedule workflow using [Trello](#) to organise what needs to be done and when.
- ✓ Provide options so that students can submit work online.

Support thinking and pattern recognition

Use tools and approaches to help learners to recognise patterns, critical features, big ideas and relationships.

- ✓ Use visuals — graphics, photos, cartoons, pictures — to support text and talk when explaining anything.
- ✓ Offer 3D virtual and physical models and real objects to help ākongā identify critical features.
- ✓ Use mind maps, flowcharts, and outlines to help learners unpack big ideas and relationships.
- ✓ Give ākongā multiple opportunities to engage with new ideas and concepts.
- ✓ Provide extra time for ākongā to think and process before they need to respond in a discussion.
- ✓ Use mindmaps to brainstorm ideas.
- ✓ Support group and class discussions with visual annotations to prompt later recall of key ideas.
- ✓ Make thinking tools and approaches available across all curriculum areas.

Useful resources

UDL Curriculum toolkit: Building Flexible, Customizable Learning Environments

This resource was developed to facilitate the creation of flexible UDL instructional materials. The Toolkit software enables any curriculum developer or researcher to design web-based curricula or interventions — from scratch, as well as to retrofit existing curricula into a UDL-supported, scaffolded learning environment for middle and high school students.

Time Timer (visual timer for visual people!)

For many students being able to see a visual representation of time passing can really support their time management. This video explains how time timer works.
