

Make accessibility tools available to all

Introduce all students to free or inexpensive tools that can remove barriers and provide support for literacy learning.

- ✓ Text-to-speech (TTS) software converts text from a website or digital document into speech by reading written information aloud. It is often highlighted with word tracking. – [TTS on Mac operating systems](#)– [Natural Reader](#)– [Read and Write for Google Chrome](#)
- ✓ Word prediction software predicts a required word as a student writes, producing a list of words. Explore [LetMeType](#).
- ✓ Spell and contextual grammar checkers. Explore [Ginger for Chrome](#).
- ✓ Closed Captions (subtitles). Turn them on when sharing videos with students.
