

# Provide options to create, learn and share

A suggestion for implementing the strategy 'Helpful classroom strategies years 1-8' from the Guide: [Dyspraxia and learning](#)

---

## **Includes:**

- Remove barriers to writing
- Enable students to personalise learning
- Utilise digital collaborative tools
- Offer options for sharing learning
- Support success in assessments
- Useful resources

---

## Remove barriers to writing

Using a netbook gives Tyler the freedom to write creatively rather than being inhibited by the speed of his handwriting or his ability to form letters.

# Enable students to personalise learning

Set up the learning space so students can adjust it to suit their needs and preferences.

Make options and supports available to everyone.

- ✓ Create opportunities where students can personalise learning tasks and projects and build on their knowledge, experience, and strengths.
- ✓ Develop success criteria with the students and present them with clear visual supports.
- ✓ Provide opportunities for students to gain confidence using a range of media so they can select the most appropriate to express their learning.
- ✓ Make learning support tools (text-to-speech, graphic organisers, planning tools and so on) available for all students.
- ✓ Offer a flexible learning environment with a variety of seating and working spaces.
- ✓ Offer a reader-writer or assistive technologies to support success in assessments.

# Support success in assessments

Discuss with students what support they need to demonstrate their understanding in assessments:

- ✓ possible barriers hidden in the physical environment, for example: unfamiliar layout of room, lighting, temperature
- ✓ possible barriers hidden in the resources and materials, for example: cluttered presentation, hard-to-read diagrams, unclear layout, hard-copies only
- ✓ approaches to managing time allocations such as calendar tools and visual timers
- ✓ approaches to managing anxiety
- ✓ approaches to maintaining concentration
- ✓ negotiating breaks
- ✓ use of digital technologies such as text-to-speech and predictive text
- ✓ pre-teaching specific assessment/exam skills, such as how to approach multiple choice questions.
