

# Extend opportunities to build understanding

- ✓ Give students time to learn at their own pace.
- ✓ Provide multiple opportunities for students to engage with new ideas and concepts.
- ✓ Offer opportunities to talk through concepts, processes and problems.
- ✓ Provide access to video and online examples of processes that allow students to revisit the steps involved as often as necessary.
- ✓ Support students to decode word problems by focussing on one aspect at a time.
- ✓ Use consistent naming conventions so that there is less decoding.
- ✓ Provide visuals to support understanding.
- ✓ Offer extra time and access to adult or peer support when required.
- ✓ Provide extended time on tests and assignments. Monitor student wellbeing as timed tests may cause stress and alarm.
