

# Reduce barriers to access

Universal Design for Learning (UDL) is a framework that enables equitable access and participation in education.

Explore the [UDL guide](#) for more information.

Leaders have a framework that will:

- support their growth and development as an inclusive school
- support consistent, coherent inclusive teaching and learning practices across their school
- guide the design of more inclusive systems and processes, community events, and building projects
- provide a shared language that can be used with all stakeholders, across all contexts.
