The Expanded Core Curriculum

The Expanded Core Curriculum is a body of knowledge and skills specific to learners who are blind or low vision, which is not addressed in *Te Whāriki*, *The New Zealand Curriculum*, or *Te Marautanga o Aotearoa*.

This resource helps learners who are blind and low vision to access and participate in the regular curriculum, as well as to develop independence skills. Adopted internationally, the Expanded Core Curriculum is critical to supporting positive learning outcomes. It is complementary to the regular curriculum and does not replace it.
