

Design outside spaces

Create visual and tactile landmarks to support student orientation when working and moving in and around outdoor spaces.

In your design, consider:

- ✓ coloured or tactile pathways for moving between buildings
- ✓ sculptures or cultural artifacts to act as keys to locations and spatial mapping of areas
- ✓ safe spaces where students can seek support from a peer or an adult
- ✓ using clear, high contrasting signage to identify buildings
- ✓ naming and attaching visuals to buildings, so that students can easily identify spaces.
