Promote understanding of spoken language

Help students with speech, language and communication needs to understand spoken content and follow verbal instructions.

To support understanding:

- use fewer words or signs
- speak or sign more slowly
- give students more time to process what they hear and see
- use supporting gestures, visuals and symbols when possible
- connect new vocabulary to familiar vocabulary
- teach and support understanding of new terms, and provide simple child-friendly definitions
- communicate using the student's primary communication system whenever possible. For example, use AAC, point to select, coreboard symbols or NZSL
- make connections to, or use, languages spoken at home.
