

Facilitate friendships

Friendships are an important foundation in an inclusive classroom.

Some strategies to create and maintain friendships.

- Identify interests – Allow learners to express their interests through discussion, surveys, games, and clubs to help them discover other students who are like-minded.
- Highlight strengths – Highlight student strengths to help learners to feel valued and confident among their peers.
- Emphasise social skills – Embed opportunities to teach social skills in the curriculum, for example, in games, problem-solving activities, class meetings or discussions.
- Provide opportunities – Encourage friendships through social opportunities such as play, group work, class trips or school-wide activity days.
