

Visual timetables | He wātaka ataata

As students get older and move around the school, they may benefit from digital-based apps and software that support managing timetables and routines. These can be added to assistive technology devices. Consider apps such as:

- [Choiceworks](#)
- [Visual Schedule Planner](#)
- [Routinery](#)

Some learners may require an exemption to carry their mobile phones in class. (See: [Using phones at school | Ministry of Education](#)).
