Checklist for knowing learners

Look for anything that is going to help you as you consider a range of potential tools and supports.

Consider these factors:

- culture, language, and identity
- environments and spaces where the learning will happen (classroom, home)
- demographics (age group, local connections, and affiliations)
- learning-related data
- medical or health conditions
- knowledge of learner preferences, abilities, and interests
- personal connections and relationships
- wairua, wellbeing, and moral and physical health
- individual learner goals and aspirations.

Partner with whānau

Connect with parents, whānau, and caregivers to understand the strengths and needs of learners.

Make connections wherever you can.

- ✓ Invite families to share approaches that are successful at home.
- ✓ Identify potential barriers and ask families for solutions based on their personal experiences and expertise.
- ✓ Encourage whānau to share successful tools and equipment they use at home.
- ✓ Ask families to share a learner's likes and interests, what they're good at, what they need help with, and what they can do independently.

Understand your students' needs

Felix, a Year 5 student, explains how accessing information through video and using text-to-speech helps to make his learning easier.
