Prepare and support all staff

Support the staff as you implement new technologies so they all feel confident and capable.

Think about using these strategies.

- ✔ Familiarise all staff, for example, teacher aides, with any digital and assistive technologies.
- ✔ Give all staff the time to practise and become familiar with technology.
- ✔ Provide training.
- ✔ Offer regular check-in opportunities for staff to ask questions, upskill, or share successful strategies.
- ✔ Provide professional learning based on feedback from staff.
- ✔ Ensure all staff are aware of the specific needs of the learner and how the tools support their goals and access to the curriculum.
