

Vary and honour the methods for response, navigation, and movement

Vary and honour the methods for response, navigation, and movement

Action & Expression

-  Allow flexibility in the pace, timing, and type of motor actions needed to interact with materials, tools, and technology.
-  Offer options for responding or indicating selections (e.g., alternatives to only pen and paper or only mouse use).
-  Offer multiple ways to interact with materials—by hand, voice, switch, joystick, keyboard, or adapted devices.
-  Build flexibility into physical environments, e.g., adjustable seating, positioning, lighting, collaborative spaces, quiet spaces.
