

Optimise relevance, value, and authenticity

Learners will vary in what they find relevant or valuable.

Consider these ideas:

- Offer flexibility within learning activities so they can be personalised to learners' identities and experiences.
- Design activities so learning outcomes are authentic, communicate to real audiences, and reflect a clear purpose.
- Provide tasks that enable active participation, exploration, and experimentation.
- Include activities that foster the use of imagination to solve novel and relevant problems or make sense of complex ideas in creative ways.
