

# Provide options for physical action

A suggestion for implementing the strategy  
'Provide multiple means of Action and  
Expression' from the Guide: [Universal Design  
for Learning](#)

---

## Includes:

- Overview
- Offer accessibility tools to all
- Consider mobility needs
- The impact of removing barriers
- Reflection questions
- Useful resources

## Reflection questions

How can I model the use of assistive technologies and accessibility tools in my teaching?

How will I reduce barriers to learning created by the sensory skills needed for a task (mouse control, steady hand, ability to distinguish similar colours or sounds, see small font)?

How can I build my knowledge of creating digital content that is accessible and user friendly?

How can I organise the physical environment to ensure all learners have access to what they need?
